

# San Simeon

Williams has combined the best taste in Spanish design with modern manufacturing techniques to produce its "San Simeon" collection. This is furniture in today's most popular style that you will be proud to own.

These pieces are produced from the finest solid oaks and oak veneers, blended with other selected hardwoods, both solids and veneers, for sound construction and lasting beauty. Decorative carvings of wood and simulated wood are also used for added beauty. The lustrous finish, distressed and highlighted, completes this appealing design concept.

For real value in fine furniture, choose Williams "San Simeon" for your home.
